Zones I, 2, 21 and 22

ATEX ELECTRICAL BOXES WITH FIRE PROTECTION +1000 °C

Avoid Damages in Case of Fire, With Our Fireproof Externally Facing that Isolate the Electrical Equipment Inside of the Enclosure

Atex Delvalle offers now a fireproof solution for boxes and enclosures protecting the terminals inside from the extreme temperatures of 1.093 °C /2000°F based fires for up to 30 minutes, in the meantime the internal temperature of the enclosure doesn't exceed of 87°C.

Ours enclosures are characterized by their high strength and durability, they are made of AISI 316L stainless steel with fireproof externally facing.

Examples

APPLICATIONS

- For the environments of explosion proof (zones I, 2, 21 and 22), we have to control the tasks of supervision and control of demanding operations.
- Petrochemical production, gas plants, pumping stations, storage of deposits, LNG production ...
- Planned for use offshore, oil refineries, chemical and petrochemical sectors and any space with a risk of explosion in general.

ATEX ELECTRICAL BOXES WITH FIRE PROTECTION +1000 °C

FEATURES

- For those who demand quality, reliability and above all, safety in extreme conditions.
- Considered for its quality and strength, extremely important in demanding environments.
- These boxes have few restrictions on their design and application.
- Setting boxes and cable entries to satisfy the customer requirements.
- The fireproof externally facing doesn't affect the certification, or the functionality of the enclosure. Not only is the enclosure protected, the glands are encased as well to ensure maximum protection and safety.

ADVANTAGES

- Suitable for critical low current control control and instrumentation applications.

NORMATIVE

- Suitable for use in zones 1, 2, 21 and 22.
- Construction and test standards:
 - IEC / EN 60079-0, IEC / EN 60079-7 and IEC / EN 60079-31
- UL 1709
- API 2218
